

BOB'S Meltdown 2

QUESTION: Does Bob's still sell used parts?

ANSWER: OF COURSE!

PHONE (301) 924-5155

Once again we are overflowing with certain used parts which, although quite valuable & perfectly usable, don't enjoy big demand. In order to create much needed space around here, we're sending a truckload of these parts to the scrap recycling center to be **MELTED DOWN!** Frankly, the very thought of a perfectly good frame or crankshaft being casually tossed into the furnace makes us squirm a bit, and we suspect most BMW owners would feel the same way. Conscience demands that we give these parts a last chance to survive. Thus, we offer them to you at **ridiculously low prices.** All parts are in good to excellent condition, and as always, **your satisfaction is guaranteed.**
